## PROJECT ASSISTANCE – Arts-Based Community Development & Leon and Thea Koerner Award Program

### About the BC Arts Council: New Foundations

---

The BC Arts Council is an agency of the provincial government established by the Arts Council Act, for the purposes of:

- Providing support for the arts and culture in British Columbia;
- Providing persons and organizations with the opportunity to participate in the arts and culture in British Columbia; and
- Providing an open, accountable and neutrally administered process for managing funds for British Columbia arts and culture.

In July 2018, the BC Arts Council released [New Foundations: Strategic Plan for the British Columbia Arts Council 2018-2022](#), which articulates the following vision:

*“Artists and cultural organizations in British Columbia are well-supported, thriving, and able to reach their full potential under principles of equity, diversity, accessibility, and reconciliation. Arts and culture are seen as fundamental to developing vibrant and resilient communities, where the people of British Columbia are highly engaged in the province’s unique arts and culture sector recognized for its innovation and leadership in Canada and abroad.”*

### Strategic Directions

The new strategic plan lays out four new strategic directions for the BC Arts Council, intended to facilitate more equitable access to arts funding and informed by the current context facing the arts and culture sector in B.C.:

- Sustainability and Creative Development
- Equity, Diversity and Access
- Indigenous Arts and Culture
- Regional Arts and Community Arts

### Values

The BC Arts Council’s values guide all decisions and activities, from program design to the peer review process. We strive for constant improvement under these values in how we serve artists and cultural organizations throughout B.C.

- Artistic Development and Achievement
- Indigenous Engagement and Cultural Vitality
- Equity, Access and Diversity
- Collaboration and Partnerships
- Engagement and Participation
- Recognition and Promotion
- Fair and Transparent Governance

## About Project Assistance – Arts-Based Community Development

---

In arts-based community development work, professional artists assist communities through arts-centred activity to gain awareness of their own power as culture makers and contribute to the advancement of creative productivity, opportunities for celebration, and human dignity, health and well-being.

**This Arts-Based Community Development (ABCD) program is based upon the following principles:**

- That art can be an effective mechanism for social transformation; one that can be less polarizing and create deeper connections than other avenues of social change.
- That arts-based community development is a respectful, collaborative process whereby professional artist(s) working as a catalyst engage the community in the creation of work in various disciplines.
- That arts-based community development can better realize its full potential through partnerships between professional artists and community as equal contributors.
- That the quality of the work's process is as important as the project outcome.
- That the community is involved at every level including the development of the creative ideas, and in the creation and/or presentation of the artwork.
- That participating in collective creation is a powerful act of civic involvement.

### Categories

Support is offered to **two** categories of activity through the Arts-Based Community Development Program: **New Work** and **Skills Development and Knowledge Transfer**.

**Applications must show:**

- Clearly identified goals, strategies and expected outcomes, including an evaluation plan for the project.
  - Effective and appropriate arts-based community development processes and a commitment to improving community ownership of cultural projects.
1. **New Work**– The purpose of this category is to support one-time projects that create new artistic work through community-based arts and cultural activity. It is expected that these projects will have a specified public outcome. This category acknowledges the long-term commitment required of community-engaged practice and therefore accepts applications that are designed with a phased approach over a maximum of three years. No guarantees are made to support any or all of the phases, and an application will be required for each phase. Speaking to the program officer is strongly recommended if your organization plans to apply for a phased project.

**Applications for support of New Work must show:**

- Evidence of the advancement of community aspirations.
  - Effective community participation in the creative process, direction and management of the project.
2. **Skills Development and Knowledge Transfer** – The purpose of this category is to enhance the capacity of artists to provide leadership to the field by offering them an opportunity to explore and discuss their creative practice and/or to create opportunities for arts-based community development practitioners to realize new ways of presenting the outcomes of existing best-practice models to new audiences.

Organizations and communities may apply to this category for a project that will assist in developing skills to initiate and conduct arts-based community development activities.

**Applications for support of Skills Development and Knowledge Transfer must show:**

- That access to information about arts-based community development practice is improved.
- That the project will lead to improved skills and capacity to contribute to future arts-based community development projects, activities and discourse.
