Grant Amounts

Maximum request amount is **\$25,000**.

Applicants may request a grant amount up to **100%** of the total eligible project budget.

Requests for the maximum amount should demonstrate a large scope, potential for impact and articulate a clear rationale for why the project requires the maximum amount.

Applicant contributions to the project budget can include both cash and in-kind contributions. In-kind compensation can include travel and accommodation support. In-Kind festival passes or registrations are not considered eligible compensation for Inbound or Outbound tours.

We encourage you to submit a realistic budget outlining the funds required to carry out the proposed project. BC Arts Council intends to support successful applications at 100% of the request. However, in some cases, grants may be awarded for less than requested.

BC Arts Council programs are highly competitive, and we are not able to support all eligible projects. Success rates in BC Arts Council grant programs are generally between 20% to 40%. Visit the [BC Arts Council Grant Recipients](#) page to review a list of previously successful applicants and the range of previous grants for this grant program.

*Required artist compensation within project activities

Eligible projects must include appropriate payment to the artists, arts and cultural practitioners, and other professionals engaged in the proposed activities. At a minimum, payments to artists should be at the recommended rates set by the arts service organization, professional association (for example, CARFAC, IMAA, etc.), or established practitioners within the field of practice. Payment structures that are not guaranteed, or that risk low or non-payment to artists and other professionals do not meet this compensation requirement (for example, commission-based sales of artworks, honoraria, percentage of door sales).

Applicants can determine compensation to Elders and Knowledge Keepers according to community context and appropriate protocols. Applicants should describe the approach used to determine the fair rate in their application.
